

One on One Training with Lafayette Instrument Company

Are there software questions that you have never asked or figured out the answers to? Well we would like to help by offering a two-day free comprehensive training on our latest version of polygraph software. This training will be given by one of our trained polygraph personnel. The training itself is free, however you will be responsible for your travel and meal expenses.

❖ **Space is limited and is on a first come first serve basis, you must register to attend session.**

**Location: Lafayette Instrument Company
3700 Sagamore Parkway North
Lafayette IN 47904**

This Training Course will be held once every quarter, please join us at one of our sessions listed below.

2009 Lafayette Software Training Schedule (note: dates may possibly change)
